What is Professional Scrum Product Owner

The 'Professional Scrum Product Owner' training is a comprehensive course that dives into the world of Agile software development with a focus on the Scrum framework. This course is designed to equip you with the knowledge and skills needed to become an effective Product Owner, a key role in any Scrum Team. You will learn about all aspects of Scrum, with a special emphasis on product management and value optimization. This is an official Scrum.org course and includes the cost of the Certified Professional Scrum Product Owner Level I (PSPO I) assessment, which you can take online at your convenience after the training.

Who should attend Professional Scrum Product Owner

- Product Owners: Understand how to maximize product value.
- Scrum Masters: Learn more about the role of the Product Owner to better support your team.
- Project Managers: Gain a deeper understanding of Scrum to manage your projects more effectively.
- Developers: Learn about the Product Owner role to understand how your work contributes to the overall product.
- Product Managers: Enhance your skills in product management and value optimization.
- Business Analysts: Understand how Scrum can improve your analysis and contribute to product success.

Prerequisites

No prior knowledge of Scrum is required, making this course suitable for anyone interested in learning more about the Scrum framework and the role of the Product Owner.

Objectives

At the end of the training, you will be able to:

- Understand the Scrum framework and its application in Agile software development.
- Recognize the role of the Product Owner and its importance in a Scrum Team.
- Apply product management techniques to optimize the value of your product.
- Prepare for the PSPO I exam of Scrum.org.
