What is Insights Discovery

In this interactive and varied training, you will discover that your way of viewing and interpreting the world is just one of many possible ways. You will learn that different behaviors can complement each other and that diverse perspectives can enrich collaboration.

The Insights Discovery profile is a psychometric tool based on Carl Jung's psychology. It helps individuals understand themselves and others, enhancing workplace relationships. The profile uses a four-color model to describe personality preferences and associated behaviors. These colors are:

- Fiery Red: Decisive and leadership-driven.
- Sunshine Yellow: Dynamic and creative.
- Earth Green: Nurturing and supportive.
- Cool Blue: Analytical and methodical.

The emphasis is on self-awareness, your own motives, and behavior. Additionally, you will delve into the motives and behaviors of others, such as team members or clients, which helps you to connect better. The color language of Insights Discovery is easy to understand and remember, allowing people to use this language daily to interpret behavior. The profile provides insights into your communication style, strengths, and areas for development, and helps you to connect better with colleagues, improve collaboration, and overcome challenges.

Who should attend Insights Discovery
