What is SAFe Product Owner/Product Manager (POPM)

Develop the skillsets needed to guide the delivery of value in a Lean enterprise by becoming a SAFe Product Owner/Product Manager (POPM). During this two-day course, you will gain an in-depth understanding of how to effectively perform your role in the Agile Release Train (ART) as it delivers value through Planning Intervals.

You will explore how to apply Lean thinking to decompose Epics into Features and Stories, refine Features and Stories, manage ART and Team backlogs, and to plan and execute Iterations and Planning Intervals. You also will discover how the Continuous Delivery Pipeline and DevOps culture contribute to the relentless improvement of the ART.

Topics Covered

- Exploring Product Roles and Responsibilities
- Preparing for PI Planning
- Leading PI Planning
- Executing Iterations
- Executing the PI
- AI for Product Roles
- Get Certified

Who should attend SAFe Product Owner/Product Manager (POPM)

Anyone who is a Product Owner or wants to become one in a Scaled Agile Framework environment.

This course is the official SAFe course and is delivered by certified trainers. The SAFe Product Owner / Product Manager (POPM) certification exam is included in the course. The cost of the exam is part of the course price. You will take this online exam at a time and place of your own choice, but within 30 days of the

course. In the Scaled Agile online learning environment, you will have access to an e-learning prior to attending the course and to the digital workbook that accompanies the course. You can also use this environment to take a practice test (mock exam). If this is your first SAFe training, a one-year membership to SAFe Studio is included. Through SAFe Studio, you have access to all articles of the SAFe-framework, SAFe Copilot, e-learning, videos, discussion forums, toolkits and templates. We always use the latest training materials from Scaled Agile.

Prerequisites

All are welcome to attend the course, but prior knowledge of agile principles and practices in general and SAFe basics in particular is advised.

Objectives

Attendees learn:

- How to perform the role of a PO and a PM on a daily basis
- How to put the customer at the center of your design, build, and test process
- How to prepare for and lead PI Planning
- How to decompose Epics to Features and Features to Stories
- How to collaborate with Agile teams to forecast work

SAFe POPM answers the questions:

- How do POs and PMs plan and execute work during a PI?
- How do I integrate a customer-centric mindset to deliver products customers want?
- How do you connect SAFe Lean-Agile principles and values to the PO/PM roles?
